Via XXV Aprile, 5 , Nichelino 10042 (TO), Italia

Personal Detail

MSc Theoretical Physics student focused on Quantum Field Theory and Elementary Particle Physics, with a Bachelor's thesis on Dark Matter scattering processes. My background bridges rigorous theoretical modeling with practical experience in experimental physics and mechanical design. Beyond academics, I possess strong leadership and communication skills developed as a certified lifeguard and sports instructor. I thrive in collaborative environments, combining analytical precision with a proven ability to work effectively within multi-disciplinary teams.

Education

- **Università degli studi di Torino** *09 2025 - present*
  MSc in Theoretical Physics Turin, Italy

- **Università degli studi di Torino** *09 2021 - 24 03 2025*
  BSc in Physics Turin, Italy

  Assessment: 108/110
  Average Grade: 28.43/30 Academic transcript
  Thesis project: *Scattering process of Dark Matter particles and role of the Sommerfeld enhancement* Thesis
  Supervisor: Regis Marco

- **ITIS G.B. Pininfarina** *2016-2021*
  High School Diploma Moncalieri (TO), Italy

  Assessment: 100/100
  Award for excellent high school graduates in 2020-2021 08 05 2022
  Chamber of Commerce of Turin link

Languages

- **Languages:** Italian (Mother tongue), English (fluent (B2))

Skills

- **Specialized Area:** Math, Physics
- **Programming Languages:** C++ (see my project), Phyton, html (basic, see my Personal Page)
- **Mathematical & Statistical Tools:** ROOT
- **Other Tools & Technologies:** LaTeX, GitHub, Mathematica, Microsoft Office, Google suite
- **Operating system:** MacOS, Windows, Linux
